

Welcome in our small family business
that we run since 2018.

Our name Γκάρλικ, is the word Garlic,
our favorite vegetable, just written with
Hellenic characters.

We use it fresh and dry almost in all our
recipes, that are made and produced by us for
you daily, with love and care.

In the Pythagorean diet,
garlic is a dominant ingredient because it
prevents Alzheimer's disease, lowers
cholesterol, fights viruses, helps detoxify the
body, improves bone health while
contributing to both physical and mental
performance.

We are what we eat.

This is our main concern and we are cooking for you handling ingredients with the best quality.

We use fresh meat, to produce our skewers and all our cuts. Our pitas and bread are fresh and handmade. In our recipes we use Samian olive oil, Greek strained yogurt and Feta cheese. Yeeros* is frozen product based on national health regulations.

Please inform us of any allergy or intolerance of yours so that we can inform you about the raw materials we use in our recipes.

The consumer has no obligation to pay the price if the legal document receipt or invoice has not been issued.
